THE "RAPID,"

Is the result of a careful study of the requirements of an efficient, durable and economical Freezer. The principles of its construction present the following meritorious points: Double action of the pain and beater; these fevolving at high speed in opposite directions, gives the desired result with much saving of iniqual labor. The neceptable form of the beater, producing a very smooth quality of free Cream and, by acration, increasing its bilk two-fold. An improved 'ye srater' which, adjusting itself automatically, to the side of the can, thoroughly removes the frozen cream, dhering thereto, the same being replaced by the less frozen portion the sterred from the centre by the action of the beater. The chilarged capacity of the can is guaranteed to hold fully five per cent. more than the quantity designated.

men for examination for promot on. These men were the ones who submitted answers that were fac-similes of each other and of the answers prepared by the chief of divis-ion for the guidance of the examiners. The latter saw at a glance that it was a case in which the questions had been furnished to which the questions had been furnished to the candidates beforehand. "Who is the man?" was the question; that is, what he his politics and who are his backers? Ee was a Democrat not long in office, a South-

. Congressman Springer having s cured a renomination is one of the Democrats who approve the Pres dent's reform proclamation, saying that he has always discour-aged in his district the participation in politics of men who hold office. This statement does not correspond with the facts brought out before the Senate Committee on Post-offices and Post roads which is now investigating the nomination of one Kinman, a nephew of Congressman Springer as postmaster at Jucksonville, Ili. Th committee is in court as to whether man has any right to the office. The law rohibits the Postmaster General from issuing a commission while the Senate is in session, but in this case it was cope. Two old incumbent, was removed and Kin-man's a pointment made out, but the latter did not receive notice thereof and qualify until the middle of December, when a commiss on was given him, at it is claimed, in violation of law. It is also charged that Koman and his assistants neglected their duties and spen: their tim for several weeks daing political work in Springer's interest, and that on the day of the primary election in May the office of the primary election in May the ome-was left in charge of one clerk, while the postmister and the rest of the employes were at the polls. As these charges are supported by Democrats they cannot be repudiated as the efforts of the Tepublicans to make capital, and they saidly interfere

with Congressman Springer's present at The Figury Question. In June last when the Democratic State Convention met in his city a p atform was adopted in which the following reference

made to the administration's course in the fishery troubles:

"That this convention voices the confidence of the D morracy of Maine in the statescraft, wiscom, patriotism and ideality of this Adm nistration, and especially rejoice in the pentium fitness of the present Secretary of State to dea with questions of mixed aw and fict acising from the disputed interpretation of existing treaties relating to the rights of a large, bard working and nerit mous body of our in the fishery troubles: hard working and merits of

fellow citizens in the fisher cases! sc-This was, of course, intended to pacify the fishermen until after the toming election, but this 'large and mer torious body of our fellow citizens" is composed of sensible men who cannot be caught with chaff of this character. It is useless for the Maine Democracy to declare confidence in Secretary Bayard for purely Lartisan purposes when a strong Democratic organ like the Boston Globels forced to condemn

his inaction in the following er phatic manner:
We regret to say that Secretary Bayard s slowness in dealing with the squestion of the fisheries gives a plausible excuse to Congressman Ding ey: for making the charge that the course of the Administration of the Secretary Control of the Sec enarge that the course of the Auministra-tion has encouraged the Cannd'ans to per-severe in their unfair treatment of the Americans. Mr. Bayard, if he did with know it, is doir g more to drive dud but fishermen from the Nemocratic standard in the Second and Fourth Cong resional Dis-triets in Maine and the Exist and Seventh Districts in Massachusetts the pall the Re-

Districts in Massacrousetts the half the Re-publican managers put togett pr.

If Mr. Bayard cannot elevate himself above the disappoint hent conjectuant upon his failure to seeme the applintment of a commission it is tune that he should give way to some one who can. Democr changes in Maine and Mass, chasetts changes in Maine and Massachusetts are not my too blooming at best, and the leaders have quite so flecient opposition to contend with without being forced to offset the work of a Democratic Sectetary! It is not pleasant to be obliged to say these things in the face of the enemy but it is necessary for the Secretary to know them if he has any regard for the Democracy of New England.

with Clingstone. The history of Guy has newer been told. He is a black gelding about affeen hands, six years old, and by Kentucky Pance, dam by American Star. He was bred by Mr. Backman, of Stoneyford, New York, and sold with other colts at the Kello g combination sale in New York in the spring of 1883. J. B. Perkins, of Clevelant, an amateur horseman and millionaire, saw the little black colt, liked his appearance and got him for \$410. He took him home and named him after his lit le son, G.y. Jim McKeever worked on the little black, who was as high-spritted as Goldsmith Maid in her youth.

One day h surprised people by trotting h ritle in 2.25. Then he was four years bld. Stories of his great speed in short sports got a road, and Secretary Faseg, of the Cleveland club secured him for sale on a contract for \$1,000. Thirty days expired Ly wrotted faster, and the price went higher, until J. I. Case, of Jay-Eye-See and Pradias fame, and W. J. Gordon were bidding against-each other. Case came on to see what he was bidding on, and missed a train at Chicago. When he got here Mr. Gordon had bought him for \$10,000 on to didtion that he would "show" 2.19. Ten days after wards he trotted in 2.217. and the \$10,000 vas paid: Then Orren Hickok arxious to replace St. Julien, and not having 'Arab, b'came a 'bidder for the little wonder, int' offered Mr. Gordon \$25,000 for him! The stairasse was I ned with tropical plants and atvery care were placed great masses of white flovers, chiefly lilies and hydrangers. The upper flight was transformed nto a hower of verdure; long and tender manches of exotic trees being so placed hat onlooking up the eye due a vault of premaching boughs sparkling with lights. In the daving-room each window was filled with groups of palaps and flowering plants. The mantelpiece was a bank of terns, staided with rare orchids, and the ireplace was one vast bouquet of crimson oses, while hydrangeas and large white liles. The ball-room was exquisitely and profusily adorned with flowers. At either side of the mantelpiece was placed a spiral column, some eight feet high, formed of caroses, white hydranths and pale pink orchids. The fireplace was filled with masses of ferns; white lilies and trimson mendow-sweet. The balcony was start infrom the street by mirrors and draper es and in each of the recesses thus produced at the windows was blaced a of these there are four. Mrs. Mackay has a petite and perfectly proport ned figure, her neck and shoulders being what the Germans call "statue-lovely" in mould and white less. Her features are fine and delicately cut, her hair dark an isilken, with a natural ripple in its glossy masses. Her eves are most lovely, bein; of a dark transpurent blue, too pure in solor to look black even under the shadow of their thick, dark lashes. Her hands and feet are of the true American type, being remarkably small; and well proport oned. She is one-of the most accomplished American lacies in Europe, speading French and Spaish with as much case and fluency as at edoes English, while, as a vocalist; she is considered by Mme. Karchesi, her teacher, as one of the best of her amateur pupils. She is remowned for the elegance and faste displayed in her tollets and her entertainments, and is, moreover, and best of all, a devote, wife and mother and daughter, the kindlest of friends and the most charity able at a benevolent of women. Cement Sewer Pipe.

Osinkogn, Oct. 20, 1884.—For the information of those who are misled concerning Coment Sower pipe, I wish to 8 ate that such sower pipe is being very extensively buninfactured and used. In the State of Wisconsin mud is preferred to vitrified. First, for its great strength and durability, it being from one-third to one-half-stronger, and less lights to cross in the ditch. Being solidly packed, in moking, between from moultid, it becomes impost ours to water or acids, an i, if one of these pipes, such as made in Wisconsin, is crossed in the fore and allied with water, the water will say there until it evaporates, which shows that it does not altered to all others on account of its single. The other this type gets, the harder and more rock-like it becomes. Second, this sipe is preferred to all others on account of its single.
